Got Nitrification?

Order by May 31st

Use Discount Code: IFM2017NH3

Our concentrated blend of *Nitrosomonas* and *Nitrobacter* cultures will speed up nitrification recovery/start up for your plant.

This product is applicable to aerobic treatment systems and has successfully established nitrification in activated sludge, trickling filters and even lagoon treatment systems.

Additional Benefits Include:

- Rapid recovery from nitrification upsets
- Improved nitrification efficiencies
- Reduce chlorine consumption caused by nitrate buildup
- Minimize impact of under-designed systems

Visit www.ifmenviro.com for additional information on this & our other available biological products.
